Personal Profile

Mathematics graduate of The University of Manchester with significant skills in problem solving and interpreting complex data whilst maintaining a conscientious approach to managing workloads.

Have recently completed a Digital Skills Bootcamp at JustIT Training to develop my programming skills and understanding of different software languages such as HTML, JavaScript and Python. Currently working on personal projects to make use of these skills.

Aiming to progress into a Junior Developer role where I can utilise my knowledge of software development and further strengthen my programming skills in a challenging and professional environment.

Education and IT Training

- Created a calculator using JavaScript.
- Created an application to manage film records in a database using Python.

Employment History

May 2022-June 2022

AQA, Manchester
Moderation Administrator (Contract)

- Managed client relationships through CRM systems and telephone communication, ensuring excellent customer service.
- Organised online databases and spreadsheets to track progress of key projects and ensure smooth processing of internal data and daily administrative duties.

- Worked with team members to support local and international clients with the appropriate and relevant materials.

Sept 2012-Nov 2018   River Island, Watford
Sales Advisor

- Cultivated time management skills by replenishing the shopfloor every 30 minutes whilst maintaining stock control, and as a result was awarded management responsibilities in the stockroom.
- Utilised interpersonal and communication skills whilst serving numerous customers a day through processing transactions and returns, providing assistance on the shop floor and managing customer complaints.
- Oversaw, supported and led the training of new and seasonal staff as an experienced Sales Advisor.
- Worked between the sales and operations teams, providing support with the processing of deliveries and the serving of customers.
- Developed my leadership skills by covering management lunches and holding the shop floor.

Interests and Achievements

Computing: Learning video game development using Unreal Engine and C++.

Hobbies:
- Playing video games with other players or alone to earn in game trophies/achievements.
- Going skateboarding. As a teenager I volunteered to help run my high school's skateboard club.

Achievements: Duke of Edinburgh Award Scheme - Silver and Bronze.
